Welcome to BlueChoice®

Welcome to the Blue Cross and Blue Shield of New Mexico (BCBSNM) Preferred Provider Organization (PPO) Network. As a BlueChoice member, you are part of the largest PPO network in New Mexico. This means you receive maximum health care benefits without giving up your freedom to make choices. With BlueChoice, you can choose from more than 44 hospitals, including a large teaching hospital, and from more than 8,000 health care providers. What's more, you do not need a referral to see any physician in the network. This means it is easy for you to find the health care providers you need when you need them.

Members receive the preferred provider level of benefits only when receiving services from preferred providers. For certain individual plans (e.g., BlueChoice and the Conversion/Transfer PPO Plan), when a Primary Care Provider is visited for office services, the member pays only the office visit co-payment listed on his/her Summary of Benefits.

When you use PPO hospitals and providers, you receive maximum benefits and reduce out-of-pocket costs. To make sure that your provider charges you properly, always show your BCBSNM identification card prior to receiving care.

When you use non-PPO hospitals and providers, your benefits are lower and your out-of-pocket costs will be higher.

January 1, 2004 Provider Network Changes Affecting Members Living Within the Counties of Bernalillo, Sandoval, Torrance, or Valencia

Effective January 1, 2004, Presbyterian Healthcare Services (PHS) and Presbyterian Medical Group (PMG) are no longer contracted with Blue Cross and Blue Shield of New Mexico for the counties of Bernalillo, Sandoval, Torrance, and Valencia. Refer to the "Finding a Provider" section to see an example.

Members may continue to see Albuquerque-area PHS and PMG providers at a reduced benefit level for most covered services although some benefits are available only from a contracted provider. Refer to your summary of benefits or benefit booklet for information on non-contracted or out-of-network providers; or call customer service at the number on the back of your ID card.

January 1, 2004 Provider Network Changes Affecting Members Living Outside Bernalillo, Sandoval, Torrance, or Valencia Counties

For members living outside the four counties, the PHS and PMG providers will continue to be considered in-network for specialty care services. The PHS and PMG termination **does not** include PHS facilities and associated physicians **outside** the four-county area or when specialty care can be provided only at Presbyterian Hospital in Albuquerque.

Introduction - continued

Directory Updates

Because we are continually working to expand the PPO network, affiliations with hospitals and provider can change over time. You are urged to check with your providers before undergoing treatment to confirm their BCBSNM PPO status and hospital affiliation. You can also call the customer service department at the toll free telephone number listed on the back of your BCBSNM ID card.

We're Also on the Web!

You can locate a convenient PPO provider via our Web site, www.bcbsnm.com. Click on "Provider Directory" to search by name, specialty, or location. Still, you are encouraged to check PPO status with your provider prior to receiving services, or call the customer services department at the toll free number on the back of your ID card.

Finding a Provider

This directory is for both members and physicians. All of the providers in this directory are in-network providers. Remember, the fact that a provider is listed in this directory does not make services received from that provider automatically eligible for benefits. Services must be medically necessary and covered under your health plan in order to be eligible for any Plan benefits. The directory is organized by these provider classifications:

- Hospitals and Urgent Care Facilities
- Primary Care Groups and Clinics
- Primary Care Physicians — includes physicians practicing in any of the following specialties such as Internal Medicine, Family/General Practice, Pediatrics, Geriatrics, and Obstetrics/Gynecology
- Primary Care Providers such as Certified Nurse Practitioners
- Specialists
- Allied Health Practitioners such as Chiropractors, Acupuncturists, Podiatrists, etc.
- Ancillary Services such as Durable Medical Equipment (DME) Providers, Home Health Providers, etc.
- Pharmacy Network

Each classification lists providers by specialty, alphabetically, within city:

➤ Denotes an out-of-network PHS/PMG provider for members living in the counties of Bernalillo, Sandoval, Torrance, and Valencia.

State
City Name
County Name

Specialty

➤ **Provider Name**
Provider Number: NM001234
◆ SPECIAL NOTE (IF ANY)
Group Practice Name
Street address, Zip
Telephone

Introduction - continued

The preceding **Geographic List** presents providers organized by state, county, city, specialty and finally alphabetically. You can find a provider any of three ways: by location, by specialty, or by provider name.

If a provider provides services in more than one geographic area, his or her name is repeated under each city where services are rendered. This makes it easy to pinpoint a provider near you. Note that providers may not participate in the PPO network at all locations where they practice. If a location does not appear in this directory, the provider may not participate in the PPO network at that location. Be sure to call your provider for complete information on participation and hospital affiliation or, you may call the customer services department at the toll free number on the back of your ID card.

The **Table of Contents** in the front of the directory can help a user quickly find a geographic listing. Two indexes in the back of the directory serve very specific purposes:

- The **Alphabetical Index** provides a quick reference when looking for a particular health care provider referenced by page number for complete information on the provider.
- The **Providers by Specialty Index** provides a quick reference when looking for a particular health care provider practicing in a specific specialty.

For Our Providers

Please remember to contact your **Network Services Department** if there are errors in this directory or to report a change in your physical or legal location. Call **1-800-567-8540 or 505-837-8800** or fax **1-866-290-7718 or 505-816-2688**

The **Provider Service Unit** will take your calls concerning claims, eligibility, and benefits. They can be reached by calling **1-888-349-3706**, Monday through Friday from 8 a.m. to 5 p.m.

For Referrals or Prior Authorizations, call our Health Services Department or fax your request. **Phone: 1-800-325-8334 or 505-291-3585. Fax: 1-800-835-8704 or 505-237-5252.**

BlueLINK Information

BlueLINK is the Blue Cross and Blue Shield of New Mexico electronic voice response referral system. BlueLINK improves your access and promotes a paperless environment. The system will decrease the amount of information needed for each referral. The BlueLINK system requires minimal clinical information. Using your touch-tone telephone, you input an ICD-9 code for a diagnosis. While you are still on the phone, you receive a BlueLINK system confirmation number at the end of each transaction. **The BlueLINK system is available 24 hours a day, 7 days a week by calling 1-866-708-4917.**

Primary Care Providers

Primary Care Providers are non-physician health care professionals such as Certified Nurse Practitioners who have had additional advanced training in providing primary care. They focus on the "whole person" and can coordinate your health care, including referrals.
